

Kogarah Secondary Schools Community Consultation

The NSW Department of Education is seeking input from schools and the community in the Kogarah-Rockdale area to understand their preferences for educational offerings for years 7-12.

They are specifically interested in feedback regarding high school enrolment decision-making and proposals for future arrangements at James Cook Boys Technology and Moorefield Girls high schools.

How do I get involved?

The consultation process includes a short survey and workshops.

The department values the input and insights of the community to inform its recommendations and decisions on educational offerings.

Scan the QR code or visit edu.nsw.link/Kogarah-Rockdale to take our survey, register for a workshop or to learn more.
